RE: Red Rock Mine Plan Review
S & S Mining Company
ACT/037/050
San Juan County, Utah

Dear Mr. Tetting:

This letter is in reference to our phone conversation on December 3, 1982. Enclosed is a copy of Mr. Ruggeri's letter dated November 24, 1982, that you stated was not on file with DOGM at the time of our conversation.

At this time we would like to request an extension of time within which to document our reply to the questions you raised in your Mine Plan Review (ACT/037/050) received at the end of October. We feel that an extension until the first of March, 1983 would give us sufficient time to resolve the environmental, financial, legal and other problems associated with this mine.

I will now be working closely with T. S. & R., S & S Mining, Mr. Ruggeri and Atlas Minerals Environmental Staff to clear up this problem as promptly as possible.

I would appreciate you sending me a copy of all correspondence on this subject in the future and contacting me personally by telephone if there are any problems involved with granting an extension as stated above.

Sincerely,

Robin Groff

RE: Red Rock Mine Pier Review
S & S Mining Company
102/017/030
San Juan County, Utah

Dear Mr. Smith:

Reference is made to your letter dated October 22, 1982, in which you request that I provide the Division with an up to date status of the project. I anticipate that the submission will take longer than 30 days.

S & S Mining Company has had some very substantial financial reverses and in order to try and correct the situation has entered into a Mining Agreement with T. S. & A. Mining, Inc., who, in turn, has been influenced in terminating the Ore Purchase Agreement with Energy Fuels Nuclear and has as of November 23, 1982, entered into an Ore Purchase Agreement with Atlas Corporation. Atlas Corporation, in turn, has agreed that it will make its environmental staff available to T. S. & A. for the purpose of working with the areas in which questions or comments have been raised. T. S. & A. and S & S Mining Company will continue to work with the project and the Atlas staff to complete your requirements as soon as possible.

We should have more definite knowledge of approximately when we may expect to comply with your requirements and I will advise you. In the meantime it is hoped that you will be understanding and allow sufficient time to prepare the necessary documentation.

You will please note that I am sending a copy of this letter to the State Department of Health, Division of Environmental Health, 150 West North Temple, P. O. Box 2500, Salt Lake City, Utah 84110.

I trust that this letter will serve to answer the Health Department's letter dated November 17, 1982, relative to the same subject matter.

If for any reason it will not, please advise me so that I can make direct contact with the Division of Health.

Sincerely,

Robert H. Ruggeri
